PROJECTS

TakeMeWhere — AI-Powered Place Discovery App / *React · TypeScript · Supabase · Vercel* In Progress

- Building a UAE place-discovery web app where users find cafes, restaurants and activities across the Emirates.
- Implemented sign-up/login with Supabase Auth, data fetching and caching with TanStack Query, and UI animations with Framer Motion.
- Next: adding natural-language AI search (e.g. "quiet café to work in Sharjah") using embeddings in Supabase pgvector and the Claude API.

Live Lunger — NGO Website Redesign / *React · Vite · Tailwind CSS · Framer Motion* live-lunger.vercel.app

- Redesigned and rebuilt an anti-smoking NGO website with reusable components and a mobile-first layout.
- Raised Lighthouse performance from 40 to 85+ and reached a 91/100 SEO score.

Volunteering Marathon — Community Events Site / *HTML5 · CSS3 · JavaScript* volunteeringmarathon.vercel.app

- Co-built a multi-page responsive site for a Lebanese youth volunteering initiative, with gallery, project listings and donation/contact pages.

WORK EXPERIENCE

Web Project Coordinator — BrandXB, Dubai, UAE Nov 2025 – Jul 2026

- Delivered 6+ live F&B client websites with a WordPress developer in an Agile workflow, owning front-end UI/UX decisions and on-time launches.
- Built Make.com automations connecting client websites, forms and tools via APIs and webhooks, reducing manual work for the team.
- Ran cross-browser and responsive QA on desktop and mobile, logging and tracking bugs to resolution before each launch.
- Maintained WordPress/WooCommerce sites and ran technical SEO audits, improving page speed and organic search visibility.
- Managed timelines and client communication from kickoff to launch, including Figma design handoff to production.
